

Full Stack Development Roadmap 2026

Frontend:

- HTML, CSS, JavaScript
- React / Vue / Angular
- State Management: Redux, Zustand
- Styling: Tailwind CSS, Sass

Backend:

- Node.js + Express
- REST API, GraphQL
- Authentication: JWT, OAuth
- Database: MongoDB, PostgreSQL

DevOps & Tools:

- Git, Docker
- CI/CD with GitHub Actions
- Hosting: Vercel, Render, AWS

Project Ideas:

1. AI Learning App with RAG
2. E-commerce Platform
3. Real-time Chat App
4. Job Portal

Tips:

- Build 3 full projects minimum
- Focus on understanding concepts, not memorizing code
- Use Postman to test APIs
